

JOB DESCRIPTION

Job Title

Senior Full Stack Developer

Department

Engineering

Locations

Hyderabad, Bengaluru (Hybrid)

Job Type

Full-Time

Experience Level

5+ Years

Budget Range

■18 LPA - ■25 LPA

Short Card Description

We are looking for an experienced Full Stack Developer to build scalable web applications using Next.js, Python, MongoDB, and modern cloud technologies.

About the Role

As a Senior Full Stack Developer, you will design, develop, and maintain enterprise-grade web applications. You will collaborate with product managers, UI/UX designers, QA engineers, and DevOps teams to deliver high-quality software while mentoring junior developers and driving engineering best practices.

Role Requirements

- 5+ years of experience in React/Next.js, Python (FastAPI/Django), MongoDB, TypeScript, REST APIs.
- Strong understanding of Git, Docker, CI/CD, authentication, and responsive UI.
- Excellent problem-solving and communication skills.

Key Responsibilities

- Develop scalable frontend and backend features.
- Build REST APIs and integrate third-party services.
- Optimize application performance and security.
- Review code and mentor junior developers.
- Participate in sprint planning and architecture discussions.

Nice to Have

Experience with Redis, Supabase, Kubernetes, AWS/Azure, AI integrations, and microservices.

What We Offer

Competitive salary, annual performance bonus, health insurance, flexible work policy, learning budget, paid certifications, and career growth opportunities.
